

DEAR SOUNDWOLF,

Welcome to a journey of self-discovery and strengthening of your feminine sound!
The **SOUNDWOLF GATHERING** is a transformation that will enrich your life and practice.

In this unique journey, you will not only deepen your connection to your voice but also to the treasures of nature.

Through the integration of ancient crafts and plant knowledge in our workshops, new opportunities will open up for you.
Discover plants that strengthen, nourish, and enrich the female body, and celebrate feminine power in all its glory!

Our **SOUND & NATURE GATHERING** is tailored for women who want to become more aware of their voice – or perhaps already are – and experiment with instruments such as the Handpan, percussion instruments, drums, frame drums, Shruti box, Ngoni, and more. It is for those wishing to explore, research, and elevate their workshops/retreats to a new level.

We are:

Mystical – Cyclical – Rhythmic – Creative

We honor the cyclical movements of women and harness the potential of these rhythms in our unique embodiment practices. Yoga & embodiment practices become self-care for women who want to center their needs and seek a true connection with their femininity. Our body is allowed to find "expression".

Through women-centered Yoga/sound/voice practices and self-care rituals, you will gradually come closer to yourself.

Our training aims to guide you back to your feminine intuition and inherent feminine wisdom. We combine science and spirituality, focusing on experiential learning.

Leave this GATHERING with more clarity, vitality, and a deeper connection to your voice, rhythm, and inner nature.

The new techniques and skills you acquire will inspire you to share your experiences with your community and grow together.

Look forward to a journey that will not only expand your knowledge but also touch your soul.

Are you ready to begin your Soundwolf journey?

We look forward to welcoming you into our community!

With heartfelt anticipation,
The Soundwolf Team :)
